I'm first year student at Thapar Institute of Engineering and Technology and pursuing a degree of Computer Science. I'm passionate and sincere about my work.

AREAS OF EXPERTISE

Right now I'm working over my coding skills and I am Full-Stack web developer and skilled well at frontend and know HTML, CSS, Bootstrap. At backend I have knowledge of Django. Programming languages in which I'm skilled at are C++, C, JAVA, PYTHON. I also love doing video editing during leisure time. Moreover, I'm always eager to learn new skills and to acquire knowledge about new technologies.
